

Tetris BOOM — Player Controls Guide 🎮

This document outlines all controls available to players in Tetris BOOM. Use this as a quick reference when learning the game or introducing it to new players.

Core Controls

- **W** → Rotate piece
- **A** → Move piece left
- **S** → Soft drop (move piece down faster)
- **D** → Move piece right

Advanced Actions

Instant Drop

- Spacebar → Instantly drop the current piece to the bottom

Theme Switching

- T → Change the visual theme during gameplay

If new controls are added or updated in future versions, please update this doc accordingly
